

## SOCIETY NEWS

### ERS- Clinical-Research Grant

In cooperation with the Foundation of **Rhinology and Facial Plastic Surgery** (RhiPla-Stiftung Ulm, Germany) the European Rhinologic Society offers financial support for clinical research in the field of **rhinology**. There is an increasing demand for evidence based results of diagnostic and therapeutic procedures, in particular surgical interventions. It is for this reason that a new grant specifically aimed at high quality randomised controlled trials in all areas of rhinology including surgery of the nose, sinuses and anterior skull base is offered.

**The support amounts to 10,000 euro in a 2-years-period.**

It can be used for equipment, material or personal. A preliminary report is asked after 1 year, a final report after 2 years. An oral report must be presented at the bi-annual ERS-Congress.

Applicants should be ENT-specialists (age- limit 45 years) and members of ERS. Applications should be made by email and have to include:

- CV and scientific background including former publications and grants
- Affiliation and details of present members and disciplines of the research-group
- Letter of recommendation by head of department
- Title, concept and goals of the planned research-project and use of the grant

Please  
send the  
applications  
with the  
documents by  
email to

Prof. Dr.G. Rettinger  
ENT-Department  
Frauensteige 12  
89075 Ulm
