

## EDITORIAL

### **Prof. Valerie Lund associate editor**

We are pleased and honoured to announce that Dr Valerie Lund, professor in Rhinology University College London, has accepted the invitation to become Associate Editor of our journal.

She will start her activities this summer.

The editorial address of the journal will for practical reasons remain at Utrecht, but authors can from now on submit papers at her address as well:

Prof. Valerie J. Lund, Royal National Throat Nose & Ear Hospital,  
330 Gray's Inn Road, London WC1X 8DZ, UK.

### **New members of the editorial board**

At its last meeting in Vienna the Editorial Board has decided that papers submitted for publication should be reviewed by at least two anonymous and independent reviewers who are unaware of the names of the authors of the manuscript. This new rule implies that the Editorial Board needs reinforcement. Several colleagues will therefore be invited to support our journal with their specific knowledge.
